**Data-based storytelling and the power to influence – 3<sup>rd</sup> February 2021**  
**Pre-session activity**

**Everyone's name is a story**

**Before the 31<sup>st</sup> January:**

As a warm up activity for **Data-based storytelling and the power to influence**, please record and upload a one-minute video story to the slack channel #databasedstorytelling, before the 31<sup>st</sup> January, narrating the story behind your name.

You may want to share the meaning of your name, who you were named after, why your parents gave you that name, or even why you chose the name for yourself.

**Before the 3<sup>rd</sup> February:**

We would like to use these short video stories, to stimulate an initial discussion about the power, potential and maybe even the limitations of story-telling, at the start of the session, so please take the opportunity to review all your fellow participants' videos before 3<sup>rd</sup> February.

Thank you
