The screenshot shows the IDEA FLIP web application interface. At the top, a browser address bar displays the URL <https://ideaflip.com/b/bkfy4hpsbr6t/>. The main content area is a light blue canvas with the text "IDEA FLIP" in the top left corner. A tip window titled "② Working with Notes" is open, containing the following text: "Drag notes onto the board." Below this is a yellow sticky note with the text "A new idea!". Further down, it says: "Resize them by holding down SHIFT and dragging. Tap them twice to edit the text. For more tips, see the 'how to use' guide in the menu." At the bottom right of the tip window is a button labeled "OKAY!". To the right of the main canvas is a sidebar with a "Stationery" section containing a "Tools" menu and a "Stuff to Add" section. The "Stuff to Add" section includes a list of colorful sticky notes, each with the text "Go on and edit me...". The bottom of the screen shows a mobile navigation bar with a home icon, a search icon, and a back icon.
